## Luther advises Klinikum Braunschweig on innovative technology partnership once again

**Following an award procedure, Klinikum Braunschweig has entered into a long-term technology partnership with Siemens Healthineers in the field of ultrasound. Luther provided legal advice to the hospital in the award procedure.**

With 38 clinics and institutes, 1.500 beds and 4.000 employees, Klinikum Braunschweig is one of the largest hospitals in northern Germany. Siemens Healthineers is the separately managed healthcare business of Siemens AG and one of the world's leading medical technology companies.

Since 2017, the hospital has maintained a technology partnership with Siemens Healthineers in the field of radiology and radiation therapy. This time, the EU tendering procedure was again used to search for a technology partner in the form of a competitive dialogue, albeit in the field of ultrasound. Siemens Healthineers has been awarded the contract and will now operate and manage all the ultrasound equipment for at least ten years and contribute around 140 new devices.

Luther provided the hospital with legal advice on the award procedure as well as on the drafting and negotiation of contracts and contributed his expertise in the health sector. The conclusion was delayed by an application for review, but the award procedure was confirmed by the Lower Saxony Public Procurement Chamber and the Celle Higher Regional Court.
